

2023 Winter Modules

Winter Modules are expedited courses available to current students, new students, and non-enrolling attendees. They consist of two on-campus classes from 6:30-9:30 PM on the listed dates (6 hours total), and 6 hours of online work. Each module is a total of \$80.00; payment is due by the first night of class. Due to the expedited nature of the modules, classes are non-refundable once a class is attended. If you are degree-seeking, each module will earn one credit toward a certificate or diploma if you have not already completed the course during a previous semester.
